SUMMARY			
This is UNEVALUATED Information			

Between 1400 and 1700 on 14 July 1955, about 30 MiG-15s [REDACTED] 25X1

were counted at Parndorf airfield. There was 10/10 overcast, 25X1
intermittent rain, northwesterly wind of between 5 and 8 km/h, 18 degrees
centigrade, and good visibility. No air activity was observed.

At 1400, fuel was discharged from railroad tank cars to tank trucks, 25X1
[REDACTED] The emptying procedure
was performed by means of truck [REDACTED] operated by a motor-driven pump. 25X1

[REDACTED] Comment. Parndorf airfield is still occupied by a Soviet fighter 25X1
regiment. [REDACTED] In this report, only 24 MiG-15s were
counted [REDACTED] during the same period of observation. 25X1
The number of MiG-15s mentioned in the present report seems more probable. 25X1
